CRAFTED IN THE WILD

Ix Balam

MADE FOR THE BOLD SPIRIT

Creating is wild territory — filled with attempts, stains, sketches, and discoveries.
We are a workwear brand created for those who transform materials, ideas, or sound
into something new.

We believe in the power of the untamed mind.
In ideas that refuse to be contained.
In curiosity that demands exploration.
In the discipline of creation.
We think with intention and create with purpose.

We are passionate about crafting with our hands what once existed only in thought.
We are not here to uniform creators, but to move alongside them.
To create with you and let ideas flow freely.
May this be the beginning of what you are about to create.

COLLECTION INSPIRATION

MADE FOR THE BOLD SPIRIT

This collection is born from the creative process of musicians: the rehearsals, recording sessions, and backstage moments before stepping out. A raw and authentic space where ideas are tested, repeated, and transformed. Where mistakes become part of the rhythm, and identity is built without filters.

We brought that energy into the product:
durable, functional pieces with character,
designed to support the process — not just the final result.
Because before the show, there is everything that makes it possible.

Size Chart

Every step matters.

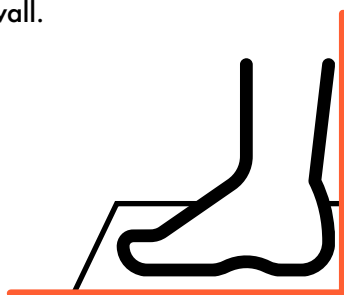

We know finding the perfect fit isn't always easy, which is why we created this guide to help you measure your foot correctly and choose the ideal size for you. Because a great pair of boots should feel as good as it looks.

HOW TO MEASURE

Follow these simple steps to find your perfect fit.

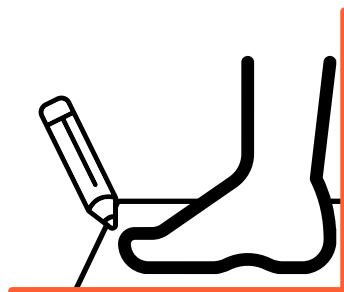

1

Place your foot on a hard surface over a blank sheet of paper, with your heel against the wall.

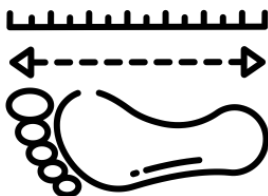

2

Using a pencil, mark from your heel to the tip of your longest toe.

3

Measure the distance marked on the paper from the edge of the sheet to the tip of your longest toe in centimeters (cm).

Note:

Every step is unique. If there is a difference between one foot and the other, measure both and use the longer foot as your reference to find your ideal fit.
